Press Release

Galaxy Scientific Launches A New Company Website

Nashua, NH (January 4, 2021): Galaxy Scientific is proud to announce that it had unveiled its new company website which reflects the company's evolution and continued success. Not only the new look was designed to better assist and service our customers and prospective customers worldwide. It also signifies Galaxy Scientific's commitment to success and to providing superb FT-NIR solutions to its customers.

The new Galaxy Scientific website, www.galaxy-scientific.com, brings Galaxy Scientific's deep industry and NIR applications knowledge to its customers in an easy to navigate format. Customers can now easily search the website by either product or application to find the appropriate information. They can also use the website to get in touch with Galaxy Scientific's experts or to get latest pricing information.

With direct offices and partners worldwide, Galaxy Scientific is committed to the success of our customers by providing them state-of-the-art FT-NIR spectrometers. Galaxy Scientific invites everyone to check out our new look and to explore our new website:

www.galaxy-scientific.com

Galaxy Scientific Inc. specializes in the development and manufacturing of innovative high-performance portable analytical instrumentation. We have developed a new generation of high-performance field portable platforms which combine next generation optics with advanced software algorithms providing breakthrough solutions to the most challenging point-of-need applications. Samples can then be analyzed in the field, rather than be taken off site to separate laboratories.
